

Flashing Clap Patterns

Now the code we used for reading clap patterns is flashed quickly. Remember that code again. A single dot means a clap and two overlapping dots means a double clap. The break between lines represents a pause.

Step 1. Single & double claps

Click on '**Run activity**' at the top of this screen.

Click on '**Next**' at the bottom of the screen.

A clap pattern, similar to the one shown here, will flash on the screen.

When the pattern has flashed, show it with claps. (For the example above, this would be - **clap, pause, double clap, pause, clap.**)

When you have shown the pattern of claps, click on '**Next**' again for a new flashed clap pattern.

Your goal is to get 8 out of 10, or better, correct.

Step 2. High & Low Claps

Click on '**Activity**' and click on '**High and low claps**'

Click on '**Next**' at the bottom of the screen to flash the clap pattern.

Now there will be high and low claps in the pattern that is flashed. When it has flashed, show the pattern with claps. Show the high claps by clapping at head level and the low claps by clapping at waist level.

The pattern above is shown by - **high double clap, pause, low clap, pause, low clap, pause, high clap.**

When you have shown the pattern of claps, click on **next** again for a new flashed clap pattern.

Your goal is to get 8 or more out of 10 correct.

Step 3. Loud & Soft / High & Low Claps

Click on '**Activity**' and click on '**High, low, loud, soft claps**'.

Click on '**Next**' to flash the new clap patterns

Now there will be high and low claps, like before, but some of the claps may be soft and others loud. The unfilled dots represent soft claps. The loud claps are shown by clapping hands like before, the soft claps are shown with 'fairy claps', tapping the first and second fingers of each hand together. When it has flashed, show the pattern with claps.

The pattern above is shown by '**high double soft clap, pause, low loud clap, pause, low loud clap, pause, high loud clap**'.

When you have shown the pattern of claps, click on '**Next**' again for a new flashed clap pattern.

Your goal is to get 8 or more out of 10 correct.

Step 4. More claps

Click on '**Number**' and click on '**4 claps**'.

Click on '**Activity**' and click on '**Single and double claps**'.

Now four claps will be flashed. When 8 or more out of 10 are correct, click on '**Activity**' and click on 'high and low claps'. When 8 or more out of 10 are correct, change to '**high, low, loud and soft claps**' and practice till 8 or more out of 10 are correct.

Your goal is to get 8 out of 10 correct with four claps at all three levels.

Step 5. Four claps with counting

Click on '**Beat**', start with **4 claps, single and double**.

Start counting to 10, saying each number in time with the beat. As you begin to count, your helper clicks on '**next**' and the clap pattern is flashed. Continue counting in time to the beat until you get to 10 then show the clap pattern. This is much more difficult because you have to remember the clap pattern for longer and the counting distracts you.

- When 8 or more out of 10 are correct, click on '**activity**' and click on '**high and low claps**'.
- When 8 or more out of 10 are correct, change to '**high, low, loud and soft claps**' and practice till 8 or more out of 10 are correct.

Your goal is to get 8 out of 10 correct with four claps, while counting, at all three levels.
